Government Liquidation

April 9, 2007

The Honorable Ron Wyden
United States Senate
230 Dirksen Senate Office Building
Washington, DC 20510

Dear Senator Wyden:

We are writing to express our support for S. 387, the Stop Arming Iran Act. Like you, we feel that no sensitive military equipment should reach Iran. As Iran is the only country that currently flies F-14 aircraft, prohibiting the sale of F-14 parts will ensure that Iran does not receive such parts through any avenues, including the Department of Defense surplus property sales.

As we have the same goal of ensuring Iran does not receive parts that can be used in their F-14 aircraft, Government Liquidation, LLC independently and unilaterally discontinued the sale of dual-use surplus property as well. Dual-use parts are those that have use on many other airframes, including potentially F-14 airframes. Government Liquidation, as always, has sought to put National Security ahead of commercial profit and took the action to discontinue such sales before the Department of Defense decided to mandate the same action.

Government Liquidation, LLC is a Department of Defense surplus sales contractor. We are assigned property to sell by the Defense Reutilization and Marketing Service (DRMS) after the property has passed through the Reutilization, Transfer and Donation process, and it has been reviewed by our Government partner. As you know, Government Liquidation takes very seriously our mission of balancing the goals of National Security first and secondarily working to realize the highest price for the surplus property in order to return the most funds to the U. S. Treasury and indirectly, the American taxpayer.

We will continue to strive to fulfill our mission of balancing these goals and are appreciative of your efforts to this end. Thank you for your support and for working to pass the Stop Arming Iran Act.

Sincerely,

Anthony C. Humpage
Executive Vice President
Government Liquidation, LLC
