

United States Senate

WASHINGTON, DC 20510

June 14, 2025

Dear Friends and Defenders of the Constitution;

I stand with you today against wanna-be kings and would-be dictators - proudly representing you in Washington, D.C. battling every hour of every day against Donald Trump and his attack on America.

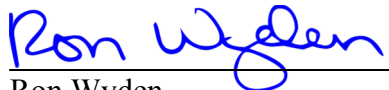

In my town halls across Oregon and countless other settings across the state this year, I've heard this message loud and clear: America said HELL NO to monarchies more than 250 years ago when we rose up against a tyrannical king, tossed his tariffed tea and said NO KINGS. Ever.

This narcissist-in-chief is slashing Americans' earned benefits and lifelines for our most vulnerable, all while demanding a \$45 million birthday parade to praise HIMSELF. What. A. Cruel. Joke.

But this is no laughing matter, particularly as we watch Trump use our own military to actively suppress Americans' First Amendment rights in Los Angeles. This administration is a coast-to-coast failure. A ludicrous parade on the East Coast while throwing a dangerous tirade on the West Coast and physically attacking a sitting senator who dared to question this administration's illegal and immoral actions? Our forefathers founded this country to be free of mad kings like him forever.

It's time to stand together against tyranny and show the world what democracy looks like. Thank you for doing just that today by practicing our First Amendment rights and standing up for our republic.

Sincerely,

Ron Wyden
United States Senator
