Dear President Trump:

We are writing to request information related to efforts by Charles and David Koch, Koch Industries, and the numerous groups they fund to influence decisions in your administration.

The close ties between individuals serving in your administration and the Koch brothers' network have been widely reported over the last year and a half.¹ Long-standing members of the Koch network fill the ranks of the federal government, raising concerns about the network's access to and influence over federal decision-making. Americans have a right to know if special interests are unduly influencing public policy decisions that have profound implications for public health, the environment, and the economy.

Last December, a six-page report titled "Efforts in Government: Advancing Principled Public Policy" was distributed to the Seminar Network—a network of wealthy individuals organized by Charles and David Koch to fund their political and policy efforts.² Among other things, this report outlined regulatory rollbacks and laws the Kochs considered successes during your first year. The report notes, "In the first eleven months of President Trump's Administration, the White House and Congress have closely followed the Network's Roadmap to Repeal."

The Koch network is taking credit for the following actions taken by the White House:

- review of the Antiquities Act and monument designations
- infrastructure project permit streamlining
- withdrawal of the United States from the Paris Climate Agreement
- repeal of limits on short-term health insurance plans

So that we may better understand the role that the Kochs and their affiliated groups have played in shaping public policy decisions in your administration, we request the following information not later than May 15, 2018:

¹ Public Citizen, *The Koch Government: How the Koch Brothers' Agenda has Infiltrated the Trump Administration*, November 30, 2017, available online at <https://www.citizen.org/sites/default/files/public-citizen-koch.pdf>.
